PROFILE

Enthusiastic BCA student with a passion for software development and problem-solving. Proficient in programming concepts, OOP principles, and data structures. Gaining hands-on experience through academic projects and self-driven learning. Quick to adapt to new technologies, with a collaborative mindset and dedication to building efficient software solutions.

EDUCATION

- **BACHELOR IN COMPUTER APPLICATION**
Bhanja College Of Computer and Management
Bhanjanagar, Odisha
MAR,2022 - MAR,2025
- **INTERMEDIATE IN SCIENCE**
Raghunath Samabaya HSS
Nayagarh, Odisha
MAR,2019-MAR,2021
- **MATRICULATION**
PCP High School
Lembhai, Odisha
MAR, 2018- MAR, 2019

PROJECTS

- **Student Academic Information Management System**
BCA Final Year Project | .NET Framework
Designed and developed a comprehensive desktop-based academic information system to manage student records, course enrollments, and grade tracking efficiently. The project streamlined administrative operations for college staff and provided a centralized platform for academic data handling.
- **TIC TAC TOE Web Game**
Modern UI Web Application using HTML, CSS & JavaScript
Built an interactive, responsive tic-tac-toe game with a scenic UI, emphasizing smooth gameplay and aesthetic design. Features include game reset, dynamic player turns, and winning logic implementation.
